### NOTE

Purchased weight and edible weights and measures shown are approximate. The average yield for all counts is 70%.

### PACK SIZES

A 25-pound lug holds two layers of fruit. The size designation equals the fruit count, e.g., size 48 = 48 count.

A 12.5-pound lug holds one layer of fruit. The size designation is double the fruit count, e.g. size 48 = 24 count.
